Profile Summary

Electronics and Instrumentation Engineering graduate with strong programming skills in **Core Java, SQL and Web Technology**. Actively seeking a **Full-Stack Web Development** role to build robust applications.

Technical Skills

Core Java
Strong hands-on expertise in Core Java, encompassing **OOPS** (Inheritance, Polymorphism, Encapsulation), **Exception Handling** and **Collections**.

Web Technology
Expertise in structuring web pages using **HTML elements** and applying advanced **CSS selectors** for precise styling and **JavaScript** for building dynamic and responsive web interfaces.

SQL
Hands-on experience in **Oracle MySQL**, proficient in writing advanced **subqueries and complex SQL statements** for efficient data processing.

Tools & Platforms
Git, GitHub, Salesforce, Postman

Educational Qualification

BE - Electronics and Instrumentation Engineering, 11/2022 – 05/2026
St. Joseph's College Of Engineering OMR, Chennai
8.07/10

Class XII - HSC, *Sowdambikaa Matriculation Boys Higher Secondary School* 08/2020 – 05/2022
88.5/100 Thuraiyur, Trichy

Projects

Waste Classification Using Autoencoders , *Autoencoders, OpenCV, Keras, Python* 02/2026 – 02/2026
Developed an **end-to-end web application** that captures real-time image feeds to accurately detect and **classify** various **waste materials**.

Automated Certificate Generation Pipeline , *Automation, JavaScript* 10/2025 – 10/2025
Engineered an **automated certificate generation** pipeline that parses structured registrant datasets (CSV/JSON) and **dynamically renders** personalized **Certificates**.

24 Hours Countdown Website , *Web Technology, TypeScript, CSS* 09/2025 – 09/2025
Designed and deployed a **high-visibility**, responsive **countdown web interface** utilized during our college's 24-hour hackathon to keep participants synchronized.

Internship Experience

Embedded Systems and IoT Intern, *Mirror Technologies Pvt. Ltd.* 05/2025 – 06/2025
Gained foundational knowledge in **Embedded Java** and **Core Java** functions to build logic for Embedded Systems. Vadapalani, Chennai

Industrial Software Engineer Intern, *Ramco Cements Limited* 06/2024 – 07/2024
Designed **Java software architectures** to facilitate communication with **PLC** and **SCADA** systems. Alathiyur, Ariyalur

Certifications

Introduction to Front-End Development Meta - Coursera
Date: 2026-10

Introduction to Back-End Development Meta - Coursera
Date: 2026-10

Programming with JavaScript - Meta, Coursera
Date: 2026-10

Introduction to Software Engineering - Meta, Coursera
Date: 2026-10

Soft Skills

Analytical Thinking, Adaptability, Technical Communication, Cross-functional Collaboration, Continuous Learning, Consistency
